

# MEMORIAL UNIVERSITY COMPUTER SCIENCE SOCIETY

Hey there, I'm Jack from the MUN Computer Science Society!

Online school has made it hard for us to advertise ourselves the usual way of presenting in-class, or chatting in person; hence you're reading this right now in poster form!

We're a society with a goal to be the voice of computer science students at Memorial, and to host fun social events and activities for all.

 [muncompsci.ca](https://muncompsci.ca)

We've got a website in which you'll find information about upcoming events, our code of conduct, and other miscellaneous documents.

 [discord.muncompsci.ca](https://discord.muncompsci.ca)

There is our super active Discord community, we've got channels for: every course, general mun questions, and some for just chatting and getting to know your classmates.

It's the best spot to be to find out what events we're running during the semester.

 [craft.muncompsci.ca](https://craft.muncompsci.ca)

Also to mention is our Minecraft server (running the latest update!) that anyone is welcome to join, just hop in the Discord for the whitelist!

Thanks for reading this, and a big thanks to the professors and staff that have likely forwarded this your way!

*- Jack Harray, President*
