MUN Computer Science Society

Meeting Minutes

February 14th, 2019

Attendance

- Riley Flynn (Vice President)
- Kyle Olmstead (Executive Assistant)
- Jack Harrhy (Technology Officer)
- Stephen Tollenaar (Representative-at-Large)

Agenda Topics

Code night

Time

- People overwhelmingly voted for Thursdays
- No hard time for start and end, just a general guideline
- Poll on facebook for what time would be best for people
- 2 - 3 hours

Location

- CS Undergrad Lab (EN2036)

Booking lab

- After we determine what time it is being held, Kyle will contact the office to book the lab
- Maybe also book projector?

Promotion

- Jacob is creating a poster
    - Post on our boards
    - Post on facebook, twitter, slack
    - Need to give Jacob twitter and mailchimp access

Projects

- Nuke or archive current slack bot repo
- Create a new slack bot, in python, that people can work on at the code night

New lab equipment

- Haven't heard back from Marty yet

Future mixers

- We have the room for friday on the break
  - Nobody is going to be on campus then, so we won't bother with further planning
- Will be discussed at next meeting with Taylor present

Outreach

Informing people of events

- Perhaps do more speaking to classes at the beginning of class to do things such as announcing events

Improve presence on campus

- Post more posters around campus
  - Jack has a poster in the works about our slack

Usage of social media

- Already covered by previous topics

Help for when help centre is closed

- Add a section of help resources, tutors, etc. to our website
- Tell them to book office hours with their prof when they are free, as office hours are typically also available by appointment

Section for resources on website

- Already resources and tutorials sections on the side bar, exec members can submit a PR with their resources (https://muncompsci.ca/resources/)

Other Topics

No other topics were discussed.
