Agenda Topics

COVID-19

- Due to the cancellations and closures due to COVID-19, we're cancelling the following until further notice:
 - Future Mixers (April 3rd)
 - Discord Bot Workshop
 - Board Game Night (March 17th)
- Some members will also be absent in person the coming weeks, but the Society will likely be online-only for the coming weeks

Clothing Order

- Likely to be delayed, we'll wait to organize this

Challenge Set

- Community engagement has been pretty low, so we'll probably end this for the year, picking up next year
- Jack will be leaving the reigns available if other society members want to pick up this

Other Topics

Socially Distanced Events

- We could organize some gaming events. Games include:
 - Minecraft
 - Team Fortress 2
 - Xonotic
 - CS:GO
 - Jackbox
 - Project Cars
 - EU4/Civilization
- Jack will look at the logistics of organizing a Minecraft server
- A poll would be nice to gauge interest
