- Elliot Barnes
- Ethan Crann
- Jack Harrhy
- Madisom Emshey
- Mathew Emshey
- Mudkip
- Vilakshan Khanna
- Yee Teing Lo (Lola)
- Zac Batten

Agenda Topics

executive-documents is broken

- Jack looked into it quickly. Pipeline is broken and posts are 404s.

Minecraft Interest

- Some interest, but not a whole lot. Definitely less than we had hoped.
- How to increase interest?
 - Announce what the prizes would be?
 - \$20 pre-paid VISA. Let's announce it on Wednesday.
 - Action: Elliot will announce on Wed in socials that we are a week out and what the prize is.

Winter Event

- Due to new restrictions, this event will be postponed indefinitely.

Hackfrost

- May need helpers here and there to help with individual workshops etc. . .
- Over 140 people signed up.
- Will be more active on social media now.
- Event will be from the 19th - 21st.

Gaming

- Any other ideas for games to host?
- Last Xonotic Event had nobody come besides Jack.
 - May have had a couple factors. Make it earlier, and the change of day didn't help

Clothing Orders

- Is it worthwhile to do another order this semester?
 - Maybe poll and see, but not hopeful of the interest that is required.
 - May be better to wait until September to organize another one.

Networking Event

- Originally planned for 13th, but it is the provincial election.
- The 14th is valentines day, so don't want to hold it then.
- We should look to re-schedule it to the weekend of the 27th - 28th of February.
- New Format: Will have one unified room instead of breakout rooms.
- Since we aren't doing breakout rooms, we will switch to google meets as it is easier to use.
- Won't need as many executives since we aren't doing breakout rooms.
- Action: Dylan will set up the website event page.
- Action: Get Elliot to advertise the event on our socials.
- Lola will be the interviewer.
