Meeting Minutes

Game Dev Workshop Update

- Hamood has been trying his hardest to get a room for a Game Dev Workshop event. No luck, MUN is making it harder than what it should.

PicoCAD

- It wasn't the best, but it was ok. Not a lot of interest
- Most submissions were from Exec

- Save the prize for another event

Kattis Comp

- Another one soon?
- This Friday?

Future events?

- Not Gmod, didn't go over well.
- Poll future events? Any feedback on how we promote events? What would members like to see?
- Is online the event killer?
- Jackbox maybe?
- Seminar room for games and board games (What is the capacity)
- In person event for end of the semester. Good way to socialize. Talk to other people from Alexander Murray Club (They are in the society reps discord) 18th?

Colton's Microphone Update

- Will be working next week, hopefully.

Actionable Items

- Zac Batten will gather info about restrictions about food requirements
- David has asked if we are allowed to serve alcohol. Waiting for a response now.
- Leah will make poster for mixer/kattis
